

President and CEO of altPOWER[®] Inc Awarded Association of Energy Engineers 2007 Renewable Energy Innovator of the Year

Monday, May 21, 2007

New York, NY - Anthony Pereira, President and CEO of altPOWER, a leading renewable energy firm, was selected as the Renewable Energy Innovator of the Year for 2007 by the Association of Energy Engineers (AEE) for his long history of accomplishments in the field.

Every year AEE grants prestigious awards to individuals and companies that have achieved national and international distinction in promoting the practices and principles of energy engineering and energy management. Mr. Pereira will pick up the award on August 15, 2007 at the 30th Anniversary of the World Energy Engineering Congress in Atlanta, hosted by the AEE.

"I am honored to be recognized by AEE for such a prestigious award" said Mr. Pereira. "AEE is a great organization that is encouraging energy efficiency and clean power at a crucial time in history. It is very satisfying to be recognized for our hard work and innovation, especially for our Building Integrated PV projects. These projects are great examples of taking PV to another level and allow architects and engineers to work together to find uses for PV on buildings that meets power production goals while maintaining a high aesthetic. altPOWER with the help of a dedicated staff has been successful in changing the construction industry's view of the traditional building shell materials from protection against nature to protecting natural resources."

About altPOWER Inc

altPOWER Inc was founded to provide expertise in the field of renewable energy with a focus on solar-electric systems, especially building integrated photovoltaics (BIPV) where solar panels are incorporated into the shell of new buildings. The market leader in New York City, altPOWER offers equipment supply, system design and installation, consulting services, feasibility/cost studies and other renewable energy services.

About Association of Energy Engineers (AEE)

The Association of Energy Engineers (AEE) is an International organization of over 9,000 professionals with a network of 67 local chapters. AEE's roster of corporate members is a veritable "Who's Who" from the commercial, industrial, institutional, governmental, energy services, and utility sectors. Its mission is to offer a variety of information resource tools through various programs.
